

REST APIs (One to One & Many to Many)

Welcome to my REST API, where your data is securely stored in a real database, ensuring that your created data will be preserved and not lost. My resource schema provides you with remarkable flexibility, allowing you to create custom objects with various attributes of different types. forming a customizable JSON object. This unique feature enables you to simulate a wide range of real-world application scenarios

REST APIs For One To One

▼ GET Methods

▼ <http://thitikorn-nupan.com:7788/api/one-to-one/car/reads>

- Response 200

```
[
  {
    "cid": "C001",
    "brand": "Toyota",
    "model": "Corss",
    "price": 919000.99,
    "releaseDate": "2024-12-30",
    "engine": null
  },
  {
    "cid": "C002",
    "brand": "Toyota",
    "model": "Fortuner 2.4S",
    "price": 989000.99,
    "releaseDate": "2024-12-30",
    "engine": null
  },
  ...
]
```

▼ <http://thitikorn-nupan.com:7788/api/one-to-one/engine/reads>

- Response 200

```
[
  {
    "eid": "E001",
    "code": "PQ10345U123451E"
  },
  {
    "eid": "E002",
